INTRODUCTION

What Is Affiliate Marketing?

A performance-based marketing model where promoters earn commissions by referring customer transactions.

Online Promotion Channel
Leverages blogs, websites, YouTube, and social media.

Unique Tracking Links
Custom URLs attribute sales to specific affiliates.

Performance-Based Pay
Commissions paid strictly on verified qualifying actions.

Real Example: A tech YouTuber reviews a laptop and links to it. When a viewer buys via that link, the creator earns a commission.

INTRODUCTION

Key Participants in Affiliate Marketing

1. Merchant

The vendor or enterprise owning the product.

2. Affiliate

The content publisher promoting referral links.

3. Customer

The shopper who clicks and completes a purchase.

4. Network

Platform handling links, reporting, and payouts.

Ecosystem Workflow: Merchant Creates → Affiliate Promotes → Customer Buys → Network Pays Commission
